OBJECTIVE

Passionate MCA graduate specializing in Artificial Intelligence, interested in UI/UX and product design. I enjoy creating clean, responsive, and user-friendly interfaces using Figma and frontend technologies. Familiar with AI tools such as ChatGPT, Google Gemini, and AI-assisted design workflows for improving creativity and productivity. Looking for an opportunity to learn, grow, and contribute to innovative digital products.

TECHNICAL SKILLS

- **Web Technologies:** HTML5, CSS3, JavaScript, Bootstrap, Wordpress
- **Design Tools:** Figma, Adobe Illustrator, Photoshop, Canva
- **Programming Languages:** Java, Python, C
- **Databases:** MySQL
- **Core CS Concepts:** Object-Oriented Programming (OOPS), DBMS, Software Testing
- **AI Concepts:** Data Structures & Algorithms
- **Methodologies:** GitHub, VS Code, UI/UX Prototyping
- **Professional Competencies:** Stakeholder Management, People Management, Rapport Building, Cross-functional Communication

INTERNSHIP EXPERIENCE

Adhoc Network Tech Company	Feb 2024 – Apr 2024
Python Full Stack Development Intern	
• Architected and deployed responsive web applications utilizing Python backend frameworks and modern frontend integration technologies. • Acquired deep practical experience in full-stack development cycles, deployment workflows, and clean code principles.	

KEY PROJECTS

Selya Technologies	
• Working on the official website of Selya Technologies, a software development company specializing in web development and digital solutions. • Contributed to responsive frontend development, UI improvements and team collaboration using Github. • Enhanced practical knowledge of frontend technologies, responsive design and real-world software development practices.	
Roamly – AI-Powered Travel Social Networking Platform	April 2026
• Built a scalable travel community platform that enables users to securely share travel logs, connect with fellow travelers, and discover new destinations. • Implemented intelligent AI-driven itinerary generation models providing personalized travel recommendations based on real-time user behavior analytics. • Integrated robust features including low-latency live chat pipelines, interactive maps, and modern gamification mechanics using Flutter, Node.js, MongoDB, and Firebase.	
UI/UX Design & Frontend Prototyping	June 2025 – August 2025

- Designed detailed responsive design frameworks and complete high-fidelity user application prototypes using Figma and Adobe Illustrator.
- Translated complex layout drafts into production-ready frontends using pristine HTML5, CSS3, ES6 JavaScript, and Bootstrap frameworks.

Interactive Quiz Application

March 2024 – April 2024

- Designed and deployed an interactive, educational environment using Python designed entirely around the framework-native IDLE environment.
- Crafted robust internal state logic providing immediate answer scoring and progress visualization tools for student evaluations.

EDUCATION

Parul University	2025 – 2027
Master of Computer Applications (MCA) in Artificial Intelligence	Vadodara, Gujarat
Aditya Degree College	2021 – 2024
Bachelor of Science (B.Sc.)	Andhra Pradesh, India

CERTIFICATIONS & ACHIEVEMENTS

- UI/UX Professional Course | Tech Mahindra Smart Academy for Digital Technologies
- Communication Certification Course MEPRO | Pearson MEPRO
- Level-1 of AI Fundamentals of AI ASCEND | Accenture
- CLA Programming Essentials in C | CISCO Networking Academy
- Java and DBMS Foundation Courses | ORACLE Academy
- Data Communication and Computer Networks (DCN) | NPTEL
- Participant, Vadodara Hackathon 6.0 (2026)
- Workshop on Python Programming for Agentic AI | Agentic AI Program
